Introduction

02

Who we are

MR Group was founded **in 1968**.

In 2018, MR Engines was established as a fully independent division of the company.

Since then, we have grown into Serbia's leading company for engine rebuilding and precision machining services.

The company was founded by **Radomir Bata Rajković**.

Our story

The road to success is a long one, and ours began **back in 1968**, when **Radomir Bata Rajković** opened his workshop in **Belgrade**.

The rest is history shaped by hard work, dedication, circumstance, and a genuine passion for the craft. Our founder laid the foundation for everything that followed, while family unity and togetherness became the formula behind our success. That formula became the key to turning our dreams into reality.

The story of **MR** is a story about family, friends, colleagues, and the honor of standing behind your words and actions.

What we do

ENGINE REBUILDING

We are a team of experts with vast experience in the field of engine rebuilding. Our company offers complete repair of all engine types, performed according to factory standards set by the manufacturers. commercial, freight, tractor and Industrial program. Types of engines that we rebuild: **automotive, freight, agricultural i industrial.**

ENGINE PARTS MACHINING

Our reputation was built by our engine parts machining services. That is why we constantly invest in the most technologically advanced machines and equipment. We offer machining services for engine heads, crankshafts, engines blocks and connecting rods.

AUTO SERVICE

In order to offer a complete service experience to our customers, we also provide the option of dismantling and assembling the engine from and to the vehicle. Besides that, we also offer other types of mechanical services, with special emphasis on the general overhaul of the engine of your vehicle.

TURBO REBUILD

Complete turbo reparation for all types of automotive, freight, agricultural and industrial vehicles. Our high level of quality is maintained solely by using the best parts the market can offer installed by our highly skilled and trained technicians.

Tiki Vent

Recognizing the need for a stronger direct presence in the Serbian market, **Tiki Vent** opened its franchise in **Niš**. With both wholesale and retail facilities in **Belgrade**, this expansion completed the company's presence across Serbia and enabled direct access to high-quality spare parts at highly competitive prices.

Following many years of successful cooperation, Tiki Vent became part of **MR Engines** in **2025**, a company recognized as a leader in precision machining and engine rebuilding. These changes are the result of our continuous commitment to improving our services, raising business standards, and strengthening cooperation with our partners.

Tiki Vent is an authorized distributor of leading global spare parts manufacturers, and with an inventory of more than **50,000** items, it fully meets the demands of the Serbian spare parts market.

Visual Identity

07

Logos

Logos (Usage)

Versions	When to use
MR Engines wordmark	Default. White version on dark or photographic backgrounds; dark/red version on light.
MR Engines Global	International and export contexts only.
Tiki Vent, powered by MR Engines	Tiki Vent parts business and storefront only.
MR “since 1968” crest	Heritage and merch contexts, stamps, apparel. Not for dense UI.
MR badge (square)	Favicon, app icon, small sizes, social avatar.

Typography (Font)

Figtree variable

Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj Kk Ll Mm Nn

Oo Pp Rr Ss Tt Uu Vv Xx Yy Zz

0 1 2 3 4 5 6 7 8 9 , . ; " ' / ? < >

Typography (Web type scale)

A semantic scale on a roughly 1.25 ratio.

Base is **16px = 1rem**. Build in rem, not px. This replaces the older web sizes (55 / 40 / 23 / 14px), whose 14px body was below the readable minimum.

Token	Desktop	rem	Line-height	Weight	Where it is used
Display	64px	4.0	1.05	800	Hero headline only. One per page.
H1	48px	3.0	1.1	700	Page title.
H2	36px	2.25	1.15	700	Major section headers.
H3	28px	1.75	1.25	600	Sub-sections, card titles, product names.
H4	22px	1.375	1.3	600	Small headers, widget titles.
Body Large	18px	1.125	1.55	400	Intros, lead paragraphs.
Body	16px	1.0	1.6	400	Default text. Minimum for reading.
Caption	14px	0.875	1.45	500	Labels, table cells, helper text.
Micro	12px	0.75	1.4	500	Legal, fine print, badges.

Letter-spacing: Display and H1 at -0.02em. H2/H3 at -0.01em. Body at 0. Uppercase labels and buttons at +0.04em.

Typography (Mobile scale)

Body never goes below 16px. Large sizes step down (use clamp()) if preferred).

Token	Mobile	Desktop	Note
Display	40px	64px	Fluid between the two.
H1	32px	48px	
H2	28px	36px	
H3	22px	28px	
H4	18px	22px	
Body and below	same	same	Do not shrink reading text.

Typography (Print and design-tool sizing)

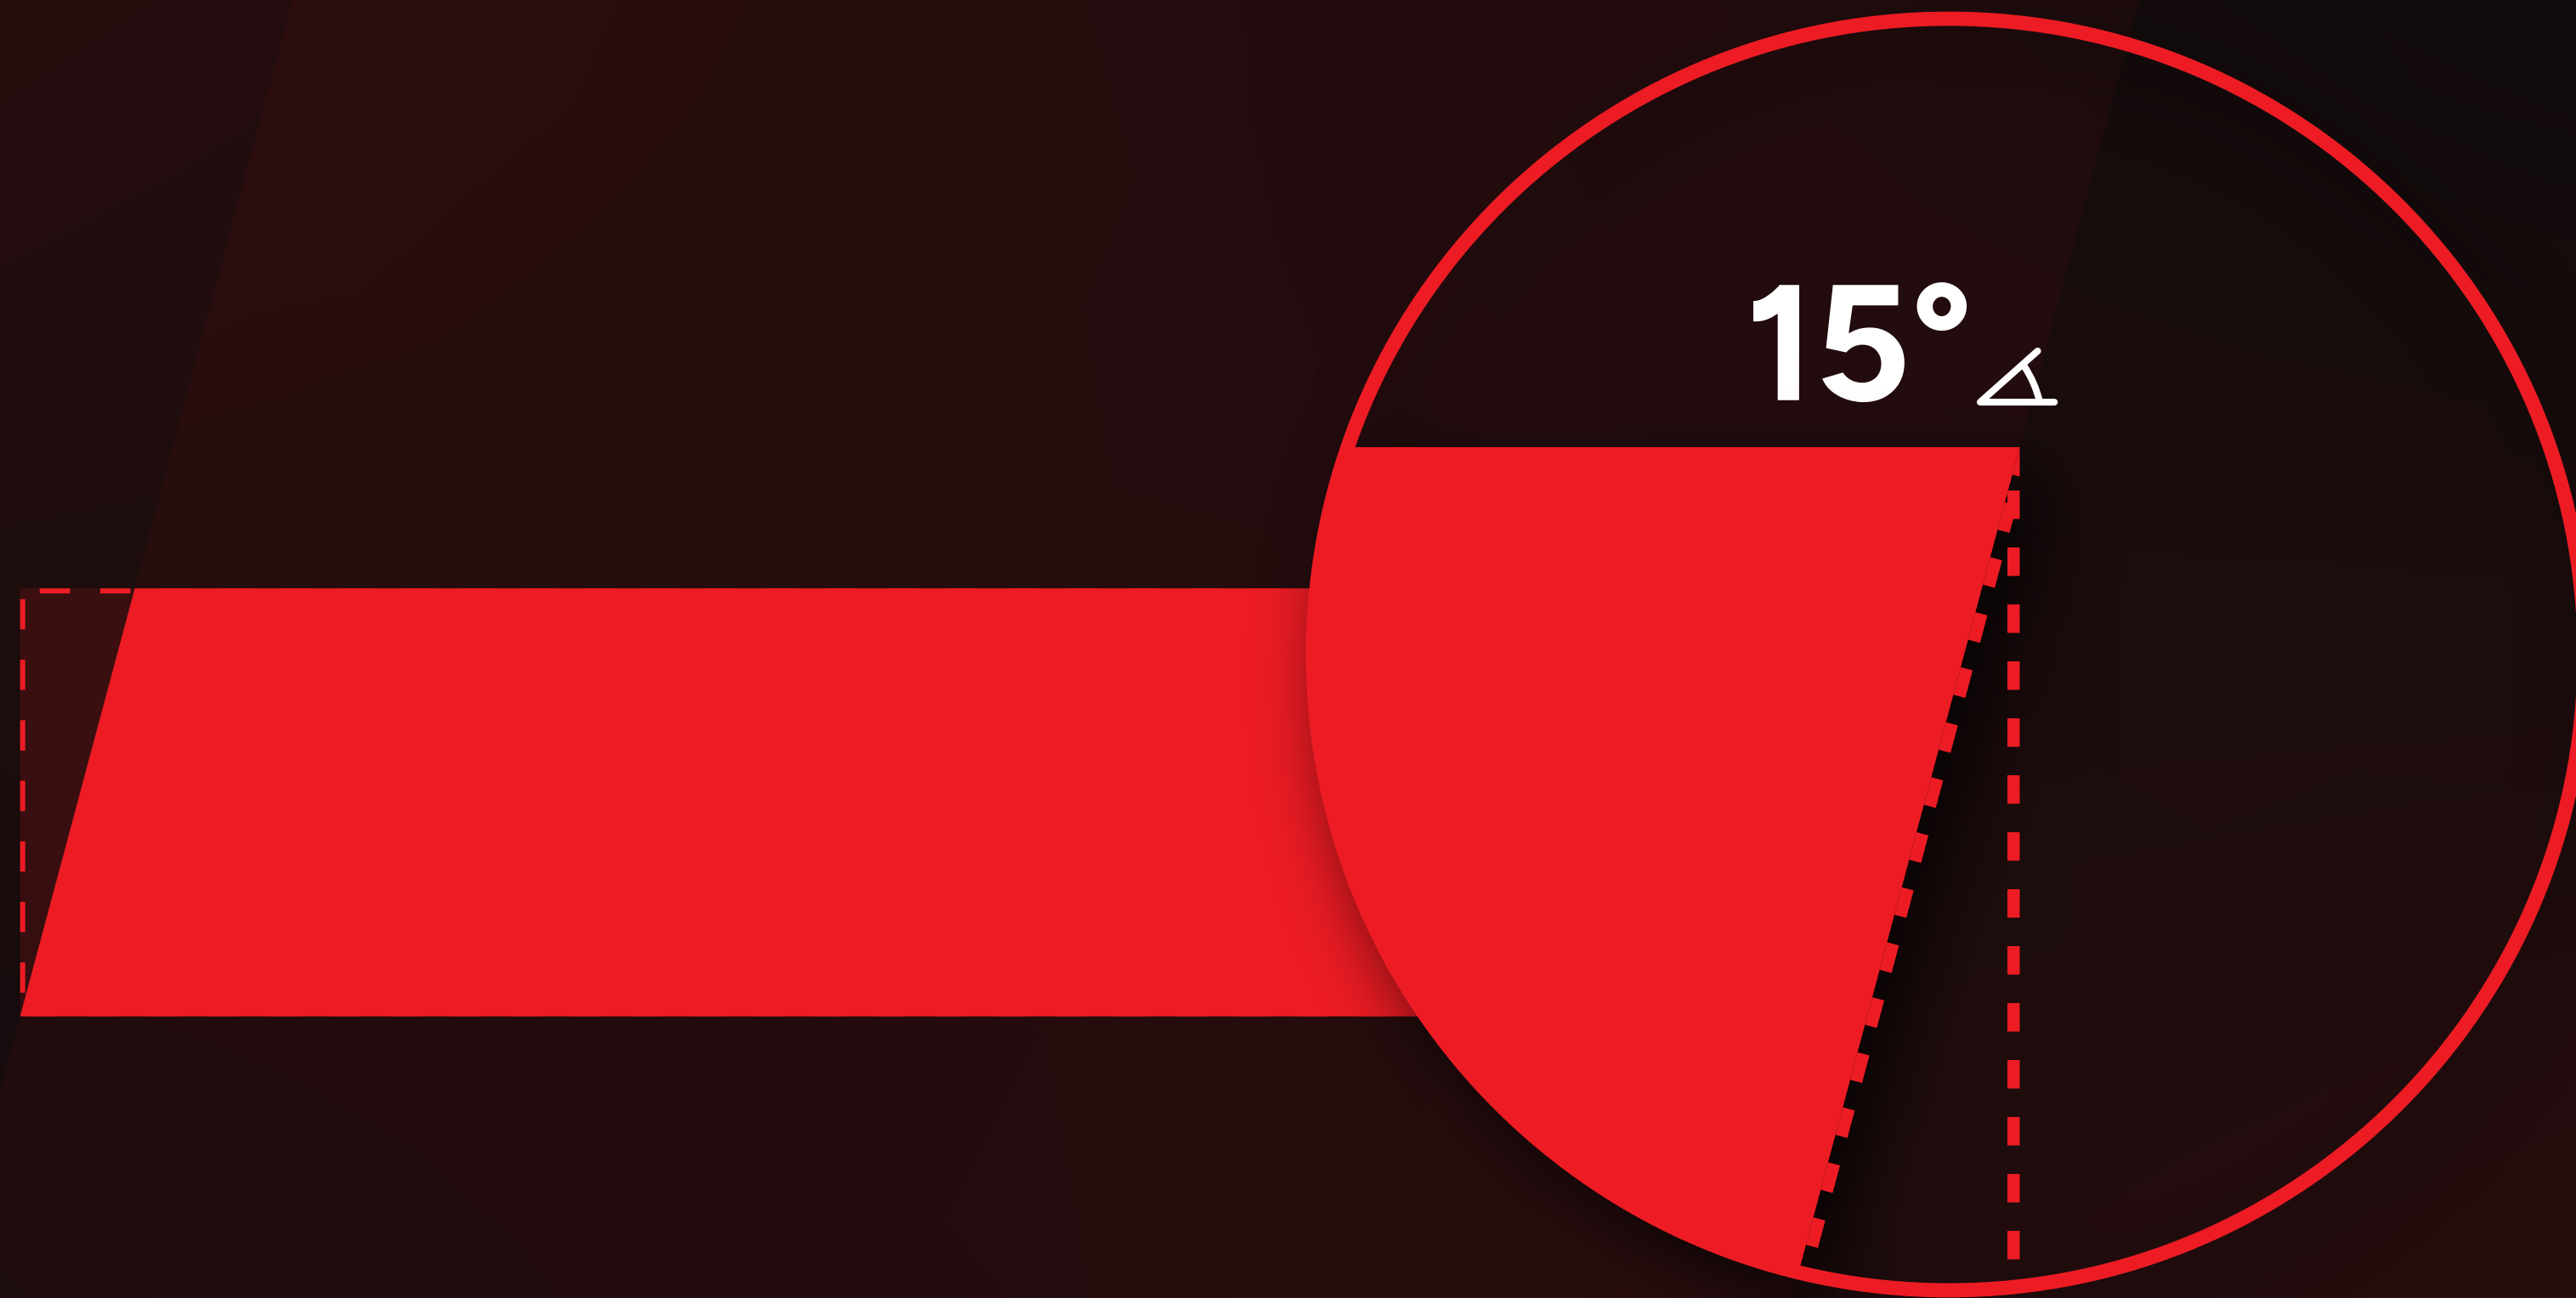

For artwork produced in Illustrator, Photoshop, Premiere Pro, After Effects and InDesign.

These pt values are for print and design only; developers use the rem scale in 6.2.

Print / design role	Size
Heading	65pt
Subheading	30pt
Paragraph	25pt
Button / CTA	25pt

Tilt (Shear)

14

Colors

#ed1c24

#ffffff

#3c3d41

#191919

Colors (Semantic / state colors)

DECISION NEEDED Brand red and error red are close. Rule to adopt: brand red #ED1C24 is reserved for CTAs and marketing; functional error red #D92D20 is always paired with an icon and a label so it can never be mistaken for a button. Confirm this rule.

Role	Base	Subtle bg	Use
Success	#1FA971	#E7F6EF	Confirmation, in-stock, positive metrics.
Warning	#F5A623	#FEF3E2	Low stock, attention needed.
Error	#D92D20	#FBE9E8	Form errors, failed actions.
Info	#2E90FA	#E8F1FE	Neutral notices, tips.

Colors (Role tokens)

Role token	Light theme	Dark theme
bg / background	neutral-50 (#F5F5F5)	neutral-800 (#191919)
surface	white (#FFFFFF)	neutral-700 (#2A2B2E)
surface-raised	white + elevation	neutral-600 (#3C3D41)
text-primary	neutral-800 (#191919)	white (#FFFFFF)
text-secondary	neutral-500 (#5A5B60)	neutral-300 (#A3A4A8)
border	neutral-200 (#C8C9CC)	neutral-600 (#3C3D41)
primary / CTA	red-500 (#ED1C24)	red-500 (#ED1C24)
primary-hover	red-600 (#C8141B)	red-400 (#F0414A)

Colors (Print values)

For merch, signage and vehicle wraps. Hex will not hold in print.

Color	Hex	CMYK	Pantone (closest)
Brand Red	#ED1C24	0 / 92 / 78 / 0	485 C / Bright Red C
Dark	#191919	0 / 0 / 0 / 90	Black 6 C
Grey	#3C3D41	0 / 0 / 0 / 75	Cool Gray 11 C

Note Confirm the exact Pantone with your print supplier against a physical swatch; substrate and screen vary.

Design system

Spacing scale

Token	px	rem	Typical use
space-1	4	0.25	Icon-to-text, tight gaps.
space-2	8	0.5	Inside small components.
space-3	12	0.75	Input and chip padding.
space-4	16	1.0	Default gap.
space-5	24	1.5	Card padding, gap between cards.
space-6	32	2.0	Section inner spacing.
space-7	40	2.5	Between sub-sections.
space-8	48	3.0	Section padding.
space-9	64	4.0	Between major sections.
space-10/11	80/96	5.0/6.0	Hero, page top and bottom.

Grid and breakpoints

Breakpoint	Min width	Columns	Margin / gutter
Mobile	< 640px	4	16 / 16px
sm	640px	6	24 / 16px
md	768px	8	24 / 24px
lg	1024px	12	32 / 24px
xl	1280px	12	auto / 24px
2xl	1536px	12	auto / 24px

Max content width: 1280px, centred. Hero and imagery sections may break full-bleed.

Components

22 Buttons, variants

Variant	Fill	Text	Border
Primary	red-500	white	none
Secondary	transparent	red-500 / white	1.5px red-500
Tertiary / ghost	transparent	red-500	none
Destructive	error #D92D20	white	none

Button states

State	Behaviour
Default	As variant above.
Hover	Primary fill → red-600. Secondary → red-50 wash.
Active	Primary fill → red-700.
Focus	2px ring in red-400 with 2px offset, always visible for keyboard users.
Disabled	neutral-200 fill, neutral-400 text. Not just lowered opacity.
Loading	Spinner replaces or precedes the label; width stays fixed to avoid shift.

Button sizes

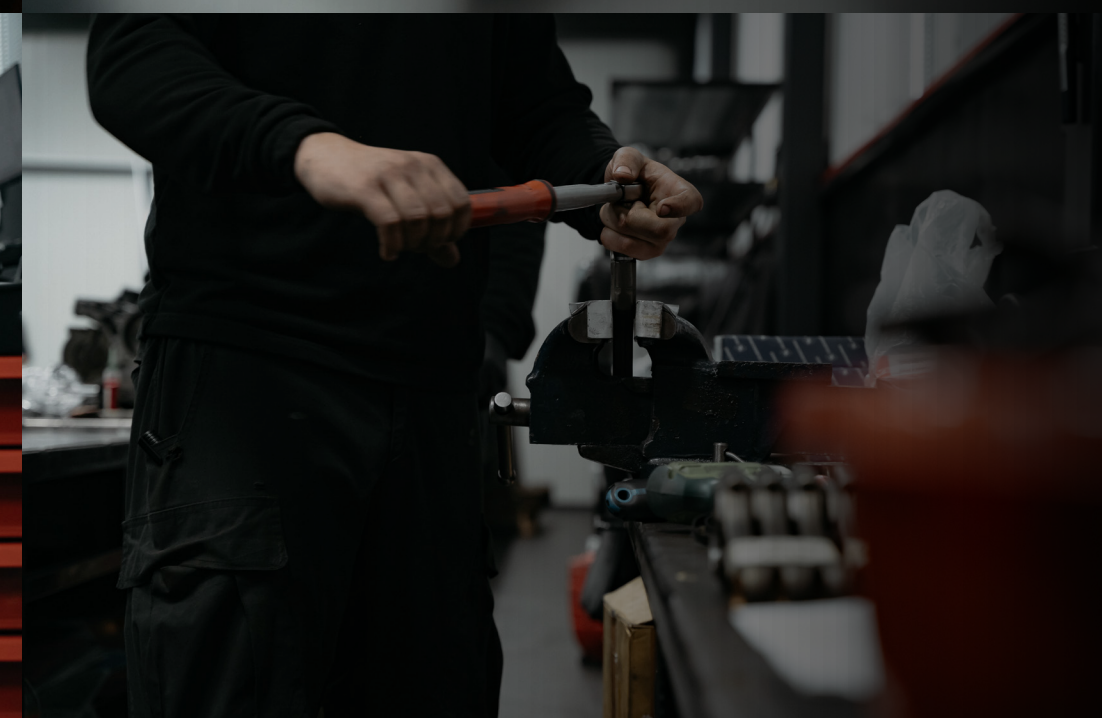

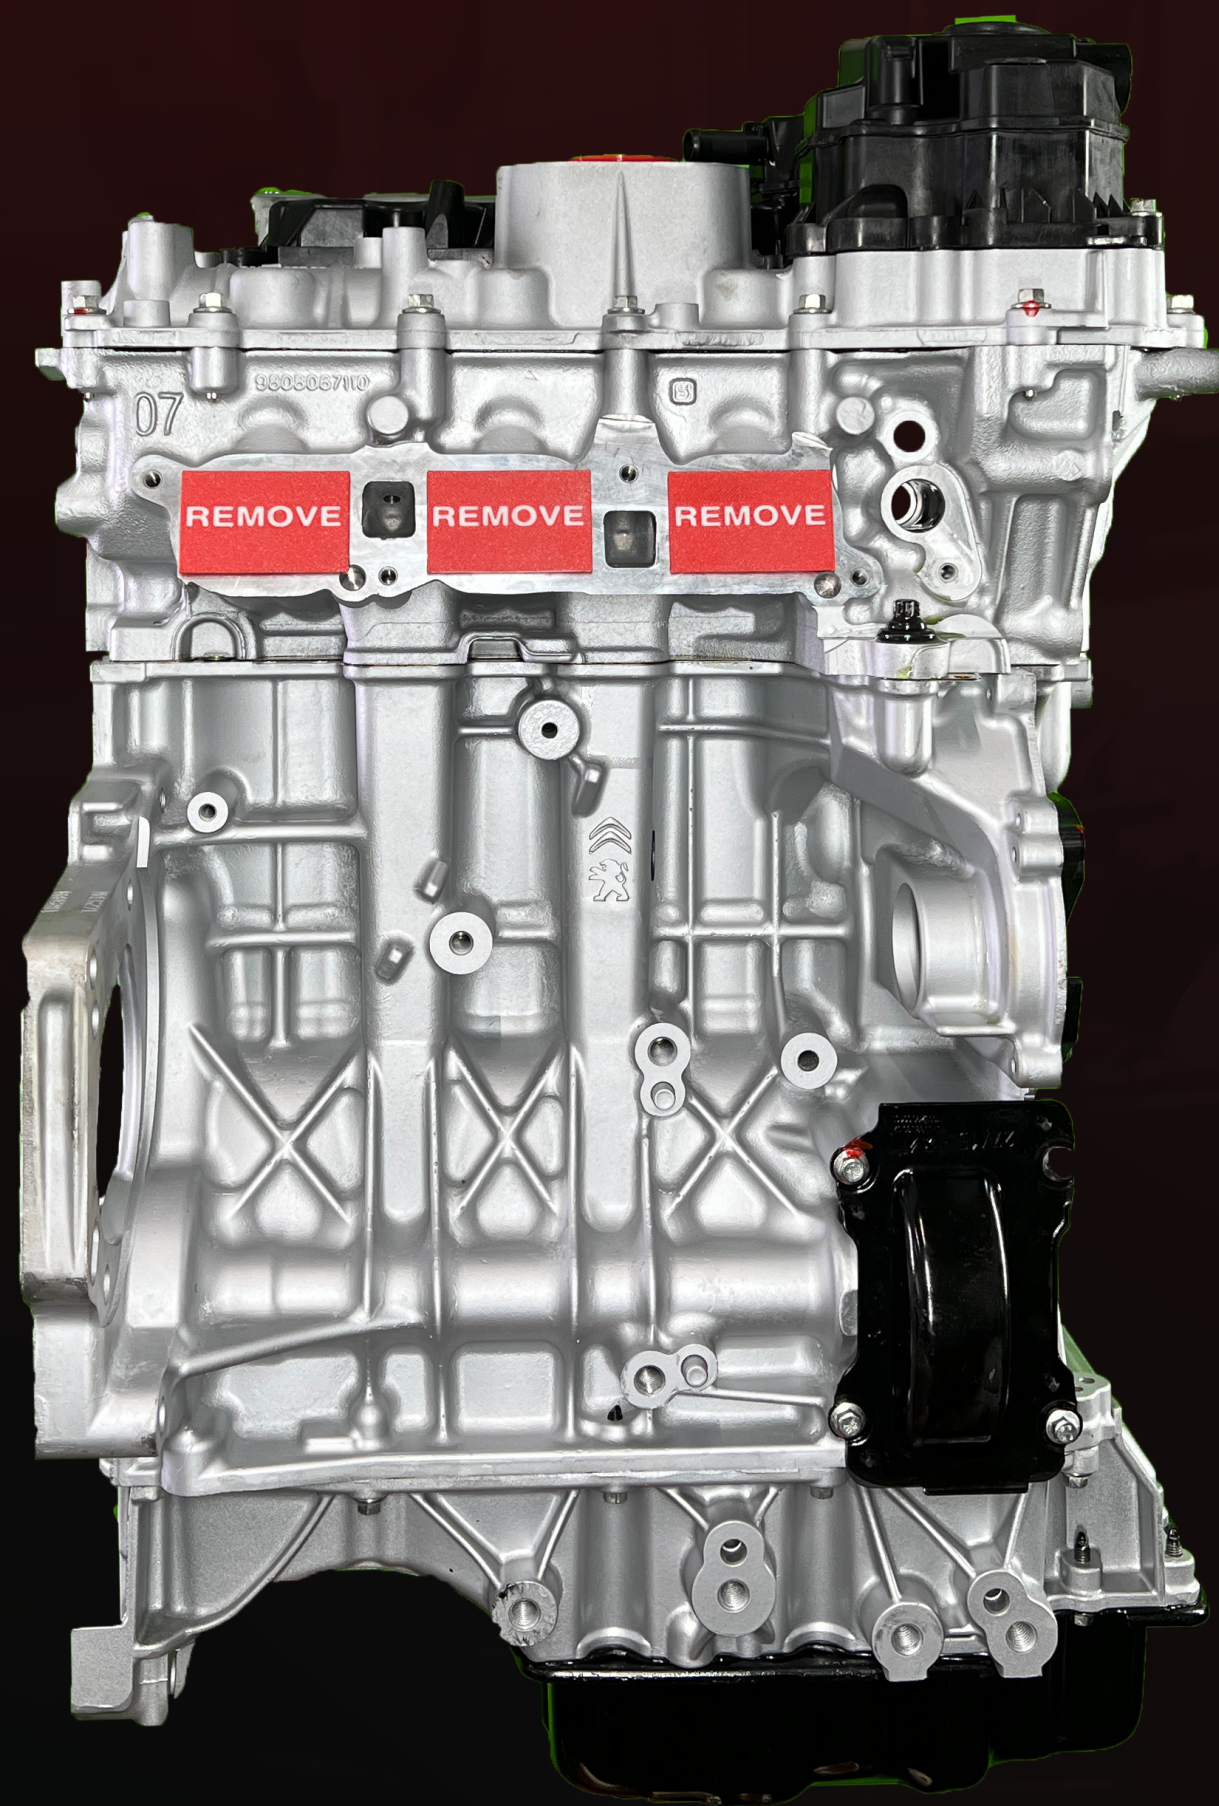

Size	Height	Padding (x)	Text
Small	32px	12px	14px / 600
Medium (default)	40px	16px	16px / 600
Large	48px	24px	16–18px / 600

Tap target minimum 44 × 44px on touch.

Sheared buttons apply the 15° shear to the container only; the label stays upright.
